

1992 Pelin Liberty

Price: \$179,000

The Pelin Liberty's current owner is following new pursuits and wants to find another caring custodian. She has recently undergone a professional forward cabin top reconstruction and has a completely shipshape exterior. All of Frank Pelin's designs are known for their easily driven and sea kindly traits, and the liberty's stand out as some of his finest. Cummins shaft drive gives an economical 12 knot cruising speed. The live bait tank is built into her boarding platform, and the tender is on weaver davits for easy deployment. With the dinghy stowed on the foredeck, Silverfox should just fit into a 12m marina berth. The teak laid cockpit has a generous lazarette and ladder access to the fly bridge. Saltwater washdown, freshwater hand basin and shower. The saloon has an aft galley with a separate fridge and freezer. There is an additional large freezer under the convertible settee forward of the galley. Lower helm and dinette to starboard. Forward, bathroom to port with head, vanity, and shower. Double berth cabin to Starboard with single bunk above. Vee berth cabin in forepeak.
